TAT Cemetery Restoration Policies: Public Guidelines

1. For the safety of the employees, and for respect for the family, and the deceased, the department will NOT be responsible for removing ANY objects off of graves.
2. Families are responsible for clearing graves of old flowers, solar lights, fences, etc. so the department can cut grass.
3. Rocks will not be allowed to be used as borders around graves as they damage equipment.
4. The families must clean graves twice a year MAY 1ST and AUGUST 1ST
5. Seasonal maintenance will be done, when possible, as funeral services/Burials have precedence.
6. Reasonable time will be allowed to the department to complete seasonal maintenance as there are numerus cemeteries to maintain.
