Pictured above is Paul White Owl Sr., swearing in Mrs. Sherry Turner-Lone Fight on November 4th, 2020. as our newly elected West Segment Representative assisting is Nathaniel Mayer.

Usually the swearing in of newly elected council members take place inside the walls of our tribal office chambers.

With the Covid-19 virus being in our area, we as a people have to take precautions and do everything differently. So with that in mind the newly elected tribal council members were sworn in outside of the Northern Lights Building in New Town.

In the picture above is Rosie White Owl assisting Councilwoman Lone Fight as she gifted Paul White Owl Sr., with a star quilt for accepting the honor of swearing her in.

Councilwoman Turner-Lone Fight had a small give away to thank those who supported her during her campaign.

The other newly elected candidate for the tribal business council was Fred Fox who was re-elected as the White Shield Representative.

Both newly elected council members did their give always outside the North Lights building. More on page 3.

From The Desk of Councilwoman Sherry Turner-Lonefight

I would first like to thank you for electing me as your councilwomen here for West Segment. I Vow to do my absolute very best for each and every one of you and the staff will give the very same effort that I do. The way I see it we are only as strong as the person next to us and this administration for West Segment will work hard for you in bringing our best results with you, our people in mind.

Secondly, I wish to give my condolences to all our families who have lost loved ones. Today we are living in very trying times this virus is to taken in all seriousness. I would like to send a kind and respectful reminder to all West Segment members, whom are residing within the boundaries of this great MHA Nation as well as away from our homelands to please follow the COVID Guidelines. Please take time to mask up and wear gloves every where you go for the safety for yourselves, your precious families, and just as important-the others around you.

I have been very busy this past week. I find us in a challenging state, we have a huge deficit of 20 million plus to overcome and the only way we can meet this challenge is with your kind patience and understanding. The TBC should have been more accountable with monies that they allowed to freely let go of. My top priority was to employ as many as our current budget would allow so you can pay your bills and keep food on the table. This alone has been quite a challenge but as we continue to improve, I do foresee more employment opportunities as we move along so that this administration can be of assistance to working families. So I ask you, please understand that I needed to make a lot of adjustments and changes in order for this to happen.

We are currently working with the MHA Nation's Chief Financial Officer Mr. Whitney Bell, who has been a great help in explaining and advising on the next best venue for West Segment. We have been awarded 5 Million for the 2020-21 fiscal year yet there is much work to be done. The TBC is demanding we pay back the 20 million within four years time. During the budget meeting I had

asked them in a humble way to take a look at our situation we had inherited and asked them to forgive our debt. With no integrity or accountability or without any compassion for our community, it was bluntly said, **"we need to repay this deficit. So the TBC will basically spoon feed us with help when possible.** This deficit sits in the hands of the TBC for allowing this to get out of hand and put West Segment in the state we are in today. We may need to lawyer up and find out what actually went down for this type of mis-funding by our leaders whom where elected to make sound decisions for our Tribe as a whole.

80% of all oil & gas revenue extracted from Fort Berthold comes from West Segment so considering our health conditions and elements we all have to endure. I will fight for our fair share so that you, the West Segment residents get what rightfully belongs to you and your community. So please be assured that this administration will work diligently for you as we work toward getting our proud community to the state our ancestors had hoped for us and our future generations.

Here are some important bits of information that I feel you need to know about:

- The Elder Program is under the direction of Polly Chase who has an employed staff to assist us in providing our elders, the services they so much need and deserve. So the program is being constructed to **meeting our elder's needs. Phone numbers and services will be published soon.**
- **We have returned the Buffalo Project Program back to the Tribe's supervision** which it had been previously under, our intentions are to keep staff working. The program is still under reconstruction and we will find an avenue for its productivity for West Segment since the project is within the West Segment boundaries.
- The Mandaree One Stop is making adjustments to better serve our community and will find ways to be open Monday thru Sunday, said adjustments will better serve our needs.

From The Desk of Councilwoman Sherry Turner-Lonefight

- Our West Segment Housing programs are also being adjusted to meet the needs of our renters we are looking at rent adjustments to better serve our housing participants.
- WSRC is not directly under West Segment for the sake of saving funds for our community but they will keep their Charter & Bi-laws. They will begin a curfew stop on BIA 12- BIA 14; to safe guard our community.
- We are utilizing our buildings by replenishing them to better serve our community needs. Plans for a Rehabilitation Center are underway, they have adopted the program title of C.A.R.E. Their services will be designed for our people in need of this service. They are starting out small and will continue to build as the days, months, & years go by.
- The community building is getting a facelift so to speak, with the amount of traffic that goes through our doors. Our vision is for our offices to better serve our visitors and especially our community members.

We are doing the best with what resources we have available in the community. There are many other areas that I have not touched upon yet. I have been to three meeting thus far.

1.} A budget meeting with Mr. Bell about our current financial situation.

2.} Executive meeting where our budget constraints where addressed by the Tribal Business Council.

3.} Our regularly scheduled TBC meeting; I would like to thank the TBC with assisting West Segment in two hardships requests for our West Segment families.

In closing, please know that each day that I arrive in my office I have the best interests of our beautiful community of Mandaree in the forefront of my thoughts. This is my home where I was born and raised right here in West Segment.

I know 1st hand of our needs, I will work hard and depend upon you to get us through. Our ancestors had our best interests in mind so lets build upon that and help each other build a better place for our current and future generations to come, we can only do this in a collective effort.

Maadzi'gid'adz.

Local Veterans Retire United State Flag At Mandaree Post Office

Photos by LeAnna Nation

Veterans Day has always been a day to honor all our Veterans.

For The Myron B. Johnson and Nathan J. Goodiron Post 271 this Veteran's Day was a special day. Three Veterans came together to retire the flag at the Mandaree Post Office. The flag at the Mandaree Post Office has aged and faced our cold, hot and windy elements which took it toll on the United States flag.

On this day it was different, it was different because of a well known Veteran, James Johnson, who not only thought of all veterans who **didn't come home.** His thoughts took him back as he began to think about his adopted son, Mike Howe who recently passed away.

Johnson stated, "The one who would have done this if he was still here would be my adopted son, Mike Howe. He would do this for our community but his not here with us anymore. This is where I got the idea to do retire the flag at the Mandaree Post Office.

We are very thankful we could do this on Veterans Day. Veterans pictured to your left are standing left to right; Patrick Dubois, James Johnson and Aaron Abbey.
